GILDED NATURE

THERE'S NO SHORTAGE OF MOTHER NATURE'S EARTH-INSPIRED WATTAGE IN **GILDED NATURE**, OUR LATEST *HANDCRAFTED BY ATELIER* COLLECTION. These hand-gilded wall textures build on our signature artisan workings of metallics and boldly pair these techniques with three original, silk-screen designs.

The designs, **GARDEN PARTY**, **THE WILDS** and **PYTHON**, are singular expressions. However, each contributes to the artist's wider view of the allure of nature's moods. We begin with a transfer of a **GILDED NATURE** design to a layer of substrate. Then the maker carefully hand-rubs metal leaf into the design. Multiple customized glazes are applied over the gilding and troweled off the surface. Extra steps by artisan hand create each design's refined patina, peaks of boldness, and layered dimensions. The artisan's patience for this time-consuming process and the joy they derive in the making are apparent in these emotive wall patterns.
